

Instructions for assembling Chapter 4:

Chapter 4.doc contains the text of the chapter, including tables and appendices.

The bar charts that go into Appendix 4-A are included in two different formats: two files contain PDF versions of these charts (one for Table 1 and the other for Tables 2-6) and another file contains ALL of the bar charts for Ch. 4 in Excel. You can use whichever version you prefer.

The zip file contains the database needed to generate the reach summary tables that go into Appendix 4-B. The report to run for Chapter 4 is “Reach Assessment Table GR”.

The final page of Appendix 4-B is a separate PDF file called “Appendix 4-B last page” – this page should be inserted right after the reach summary tables from the database.

Appendix 4-C is a PDF file.
