

Instructions for assembling Chapter 6:

Chapter 6.doc contains the text of the chapter, including tables and appendices.

The bar charts that go into Appendix 6-A are included in two different formats: two files contain PDF versions of these charts (one for Table 1 and the other for Tables 2-6) and another file contains ALL of the bar charts for Ch. 6 in Excel. You can use whichever version you prefer.

The zip file that was placed in the “WAR Chapter 4” folder contains the database needed to generate the reach summary tables that go into Appendix 6-B. The report to run for Chapter 6 is “Reach Assessment Table UP”.

The final page of Appendix 6-B is a separate PDF file called “Appendix 6-B last page” – this page should be inserted right after the reach summary tables from the database.

Appendix 6-C is a PDF file.
