## **ABOUT THIS VOLUME**

This is Volume One of the Watershed Management Plan, “Watershed Characteristics Report,” a product of the Santa Clara Basin Watershed Management Initiative. It is the first volume of a planned four comprising the Watershed Management Plan for the Santa Clara Basin. An abridged version of this report, which condenses the information contained in this volume, is also available. Chapter numbers and major sections in this report correspond to those in the abridged version. The abridged version can be obtained from the Project Coordinator for the Watershed Management Initiative at the address below or visit the web site, where both the abridged and unabridged versions of this report are available for review and downloading.

## **WE WOULD LIKE TO HEAR FROM OUR READERS**

The Watershed Management Initiative values community participation and welcomes your feedback for consideration in future publications. If you would like to comment on this document, or are interested in playing a part in managing our watershed, please visit our website at [www.scbwmi.org](http://www.scbwmi.org).
